**Subject: Request to amend English to Nepali translations on Google Translation**

Respected individual,

We are Queer Youth Group from Lalitpur, Nepal. We work for the rights of PoMSOGIESC (people of marginalized sexual orientation, gender identity and sex characteristics), or also known as the LGBTIQ+ community. Today, on the occasion of International Transgender Day of Visibility, we'd like to draw your attention to a concern regarding Google Translate's translation in Nepali language.

We've noted that many Google Translations of LGBTIQ+ and gender & sexuality related terminologies in Nepali language are incorrect. While we are aware that Google Translate is constantly improving the quality of translation, Google Translate is used as an important tool worldwide and we believe having incorrect information creates a harmful impact on the consumers which we can improve by placing correct information.

We've attempted to correct the information using features available in Google Translate itself. However, since 2018, we have made multiple attempts and yet the incorrect information's not been able to be amended. Therefore, we thought we'd petition the stakeholder manually.

We're very hopeful that you will consider our concerns regarding the translation and take appropriate measures to solve the issue.
